EDUCATION

University of Washington, Information School — **Seattle, WA**
Bachelor of Science, Informatics: Data Science & Minor in Business — **December 2026**

- Relevant Coursework: Databases & Data Modeling, Data Science Methods (R & Python), Data Visualization, Statistics, Machine Learning Foundations, Artificial Intelligence Foundations, Data Structures and Algorithms
- Honors: Annual Dean's List 2023-2024

PROFESSIONAL EXPERIENCE

Microsoft — **Redmond, WA**
SWE Intern – M365 Core IC3 Media SDK Team — **06/2026 – 09/2026**

- Built a server-side alignment system estimating word-level timestamps for Copilot Voice from RMS audio energy and pause-anchor interpolation, cutting caption drift from ~5 seconds to 1-2 seconds
- Prototyped a client-side custom playback clock for real-time karaoke-style word highlighting
- Authored the client integration contract and delivered a full handoff package to client teams.
- Collaborated with cross-functional teams to define requirements, deliver solutions, and influence adoption

Microsoft — **Redmond, WA**
AI & SWE Intern – M365 Core Data Science Real Time Communications (RTC) — **06/2025 – 09/2025**

- Automated audio-anomaly analysis for a **~50-person** Data Science team, cutting investigation time by **83% (30 to 5 minutes)**
- Delivered self-service analytics, enabling non-technical stakeholders to query anomaly data in natural language, improving communication and accessibility of data insights
- Defined requirements with cross-functional stakeholders and authored handoff documentation enabling other teams to extend the framework to new tools

Microsoft — **Redmond, WA**
Explore Intern — **06/2024 – 09/2024**

- Designed and executed a **25+ participant** A/B experiment measuring Spatial Audio's effect on intelligibility in Teams meetings
- Analyzed results in Python (Pandas) using z-tests & t-tests against KPIs, quantifying a **15% improvement** in meeting concentration with Spatial Audio enabled
- Presented data visualizations to product and engineering teams and co-authored a research abstract for journal submission

Microsoft — **Redmond, WA**
Discovery Intern — **07/2023–08/2023**

- Collaborated in a 5-person team to redesign an internal incident management workflow unifying Outlook and Teams messages into a task-prioritized interface to streamline communication between Customer Success and Satisfaction engineers and external clients.

Local Bigger Burger — **Seattle, WA**
Marketing & Growth Strategy Lead — **08/2025 – Present**

- Tracked TikTok and Instagram engagement KPIs and iterated content strategy, reaching 500K+ views in one week
- Grew audience by **500+ followers** in 3 months and drove **$1000+** in event-based sales

PROJECTS

- ***StrandStory – Startup Founder:*** Building a hair-growth habit tracking application with photo-based progress tracking and Gemini-powered weekly growth comparisons. Currently conducted **5 user interviews** and collected **30+ waitlist signups** and developing MVP.
- ***Margin Squeeze - AI Spend vs SaaS Margins Analysis:*** Built an ELT pipeline and dbt data models over **19,356 financial facts** with **76 data tests**. Discovered that median SaaS gross margin rose **155bps** since FY2022 by analyzing SEC filings for **25 public companies.** Published Tableau and Streamlit dashboards plus an AI agent to answer data queries
- ***LeaseLens:*** Platform that analyzes uploaded apartment lease documents and provides LLM powered insights and summaries through a React interface to ease lease-signing process (Informatics Department Capstone Project)
- ***NYC Homeless Shelter Trends:*** Cleaned and analyzed 10 years of NYC shelter census data in an interactive analytics notebook built for to explore homeless shelter trends for policymakers and journalists.

LEADERSHIP AND INVOLVEMENT

Muslims in Informatics (iMuslims) — **Sammamish, WA**
Professional Outreach Coordinator & Co-President — **09/2024 – 08/2026**

- Led planning for professional events co-organizing a collaborative hackathon (Niyyah Hacks), company visits to Remitly & Microsoft headquarters, alumni panels, fundraisers, & social events.

SKILLS

- All Skills: SQL, Python (pandas, scikit-learn), R, dbt, DuckDB, Data Modeling, ELT/ETL, Data Quality Testing, A/B Testing, Gen AI, LLMs, Prompt Engineering, Azure OpenAI API, MCP servers, Cloud Computing
